

## **Grade 9 MYP Korean A**

Students in Grade 9 MYP Korean A develop key analytical, organizational and presentation skills. In the first unit, Community and Service, students learn to recognize and appreciate their role in our community and how to make it a better place to live for everyone. In the second unit, Health and Social Education, they study why we need to be educated and how to be educated. In the third unit, Environment, they investigate the benefits and consequences of development. The last unit, Human Ingenuity, students explore how to make better society. In each unit, students analyze modern world and Korean literary works, while developing a personal appreciation of literature. They develop an understanding of the techniques involved in literary criticism and focus on key language skills: reading, writing, speaking, and presenting. All units include assessments in each of these skill areas.
